

University of Cambridge Centre for Risk Studies & Department of Engineering's Student Journal Club:

Decision Making under Uncertainty - Methodologies from Signal Processing & Forecasting

Date: Four Friday Sessions @13:00 – 14:00
11 Feb 2011, 11 Mar 2011, 29 Apr 2011, 13 May 2011

Location: Cambridge Judge Business School's Castle Teaching Room
Trumpington Street, Cambridge CB2 1AG

Registration: Kindly make requests by email to [m.tuveson@jbs.cam.ac.uk]

Journal Club Overview:

This jointly sponsored journal club will bring students from the engineering and business communities together to review seminal literature around decision theory in the context of signal and information processing.

Each session will include three presentations by meeting participants, each lasting 15 minutes with 5 additional minutes of discussion time. The focus of this journal club will be to broaden knowledge base and research scope for PhD students.

The journal articles can be selected from the Centre's recommended list of articles on decision theory. A list will be emailed to all participants.

Journal Club Convenors:

- **Professor William Fitzgerald**, Professor of Applied Statistics and Signal Processing, University of Cambridge – Department of Engineering [wjf@eng.cam.ac.uk]
- **Dr Joan Lasenby**, Senior Lecturer in Information Engineering, University of Cambridge – Department of Engineering [jl221@eng.cam.ac.uk]
- **Michelle Tuveson**, Executive Director, Cambridge Centre for Risk Studies [m.tuveson@jbs.cam.ac.uk]
